

About Internet Academy

As Washington's first online school, IA has been serving K-12 students since 1996. With more than a decade as the leader in online learning, IA offers experience, tested curriculum, and caring, quality teachers familiar with Washington's standards. IA offers a wide variety of academic and elective courses, with new courses coming online each term.

IA students can excel in our individualized, one-on-one online learning environment. All it takes is a computer, web access, self-management skills, and the drive to learn!

Flexibility

Students and families have individual needs and goals. IA provides the flexibility to meet the needs of every student and family.

Join us for a full-time schedule or even for just a single course - *you* shape *your* schedule.

State funding supports students, depending on the total number of courses taken.

Our Mission Statement

Through online comprehensive courses, Internet Academy challenges K-12 learners to grow in intellect and responsibility, for life long success.

INTERNET ACADEMY

Federal Way Public Schools policies and procedures provide all students with disabilities an equal opportunity to participate in the Internet Academy. They provide that a student with a disability will not be excluded from the program, except where careful consideration has been given to the services, modifications, or adjustments necessary for such a student to participate, and where it has been determined that such services or modification would fundamentally alter the nature of the program.

The District shall provide equal educational opportunity and treatment for all students in all aspects of the academic and activities program without regard to race, creed, color, national origin, gender, marital status, sexual orientation including gender identity, or non-program related physical, sensory or mental disabilities (consistent with RCW 49.60). District programs shall be free from sexual and malicious harassment.

SCI181/182	Science 8
SOC181/182	US History 8
HFL181	Foods (1st sem.)
ADV182	Advisory (2nd Sem.)

Always Something New At IA

Does one of these courses pique your interest for learning more?

Gothic Literature: Monster Stories

From vampires to ghosts, these frightening stories have influenced fiction writers since the 18th century. This course will focus on the major themes found in Gothic literature and demonstrate how the core writing drivers produce, for the reader, a thrilling psychological environment. Terror versus horror, the influence of the supernatural, and descriptions of the difference between good and evil are just a few of the themes presented. By the time students have completed this course, they will have gained an understanding of and an appreciation for the complex nature of dark fiction.

Veterinary Science: The Care of Animals

As animals play an increasingly important role in our lives, scientists have sought to learn more about their health and well-being. Taking a look at the pets that live in our homes, on our farms, and in zoos and wildlife sanctuaries, this course will examine some of the common diseases and treatments for domestic animals. Toxins, parasites, and infectious diseases impact not only the animals around us, but at times...we humans as well! Through veterinary medicine and science, the prevention and treatment of diseases and health issues is studied and applied.

Grades 9 through 12

English

ENG333/334	Freshman English
ENG431/432	Sophomore English
ENG441	Honors Sophomore English
