Dear Parents,

Thank you for choosing the option of Internet Academy for summer school. **Your online registration indicated your student has received special education services during the 2008-2009 school year.** We would like to share a little more about what is involved in your choice of Internet Academy and what we can offer your student through our online summer school program.

Internet Academy summer classes are taught as mainstream, general education courses. Teachers in our program are not endorsed in special education, meaning that specially designed instruction is not part of our summer school program.

Summer courses are written at grade level and to meet grade level expectations. Content will not be altered or adjusted. However, there are some accommodations that are part of all our online courses and may benefit your student's learning needs.

- Students have the opportunity to revise assignments to meet expectations based on teacher suggestions.
- Students may schedule their "school" work anytime the Internet is available (24x7), possibly taking more time with assignments if needed, while staying within the six week summer program dates (June 29th – August 7th).
- Students have access to a teacher for each class through email, phone or by appointment and are encouraged to communicate with their teacher several times each week.
- Within the limits of the Internet Academy program, additional reasonable accommodations may be possible to address other specific facts and needs for a particular student.

Please keep in mind that all course work for each class must be completed at a satisfactory level within the six-week summer school program, June 29th – August 7th, for students to earn credit.

We would be delighted to work with you and your student if our program meets your educational needs. We wanted you to be aware of our strengths and limitations before making Internet Academy your CHOICE for summer school. If you have questions, please feel free to call Wendy Nevin (253) 945-2239.

Sincerely,

Ron Mayberry, Principal

PLEASE COMPLETE and RETURN to Internet Academy. We cannot continue the registration process until we receive this signed form. Please check the option below that describes your summer school participation choice.

- Internet Academy's general education courses will meet the needs of my student for summer school and we are choosing to participate in this program. We are aware of the accommodations possible with IA classes and do not expect specially designed instruction to be part of the summer school program. We are ready to pay tuition and complete the registration process.
- At this time, Internet Academy general education courses will not meet the needs of my student. We will not be continuing with the registration process for summer school.
