### { Course Description }

The process of parenting is more than just having children and making sure they eat, sleep and get to school on time. Learn what to prepare for, what to expect, and what vital steps a parent can take to create the best environment and life for a child. Parenting roles and responsibilities; nurturing and protective environments for children; positive parenting strategies and effective communication in parent/child relationships are some of the topics that will be covered in this course.

#### **Course Materials:**

At home practice of the principles and skills covered is encouraged.

#### **Recommendations for successful participation in this course include:**

- **Speakers** to access the audio of the lessons and videos
- **Headset with a microphone** for our live study sessions.

#### **State Alignments**

Washington State Standards guided the design of the course. Learning expectations are found within the course itself.

Standard 1: Analyze roles and responsibilities of parenting.

Standard 2: Evaluate parenting practices that maximize human growth and development.

Standard 3: Evaluate external support systems that provide services for parents.

Standard 4: Analyze principles of human growth and development across the life span.

Standard 5: Analyze strategies that promote growth and development across the life span.

Standard 6: Evaluate the effects of diverse perspectives, needs, and characteristics of individual and

families
