

The Online Registration system will start by collecting Parent/Guardian information. When that section is complete, the system will move to the Student section.

The system will assign each student to a neighborhood school based on the home address, unless you respond that you are registering for an Other School Site or Program when prompted.

Follow the instructions in this guide to make sure the registration will be sent to Internet Academy.

The system will prompt you for more student information before making the final school selection.
If you live outside the Federal Way School District boundaries, the **Information** box may contain a message that says no school could be found based on your address. This is ok. You'll be able to select Internet Academy from the drop down menu in the **School Selection** box.
Select Internet Academy, then **Save and Continue**.
